1. Read a music survey · 20 puan

A fictional school surveyed 40 pupils. Each pupil selected ONE preferred music type: pop 18, rock 10, folk 8, classical 4. A separate question allowed several listening situations: travelling 28, studying 16, exercising 12. The survey did not include pupils from other schools.

Which music type was most preferred, and what percentage chose it? Why do the listening-situation counts add up to more than 40? Can the results establish the preferences of all pupils in the city? Explain.

Örnek yanıt

Pop was most preferred: 18 out of 40, or 45%. Listening-situation counts exceed 40 because pupils could choose several situations. The results cannot establish city-wide preferences because only 40 pupils at one school were surveyed.

- Tek tercih sorusunu çoklu yanıt sorusundan ayır.
- 18/40 oranını yüzdeye çevir.
- Örneklemin tek okulla sınırlı olduğunu belirt.

Dikkat: Çoklu yanıt toplamını hata saymak veya $18/100=18\%$ hesaplamak.

2. Write a survey report · 33 puan

Fictional survey: 30 members of a school club, one preferred music type each.

Pop: 12; rock: 9; folk: 6; classical: 3.

Separate question: "Where do you usually listen?" Headphones at home: 18; speakers at home: 8; live events: 4. Each member chose one option.

These results describe this club only.

Write a 60-80-word survey report. Identify the group and sample size, compare at least two music preferences, report the most common listening option with its count, and give a conclusion limited to the surveyed club. Do not invent reasons for the choices.

Örnek yanıt

Example: Thirty school-club members completed the music survey. Pop was the most popular type, chosen by twelve members, while nine preferred rock. Folk attracted six votes and classical music three. Eighteen members usually listened through headphones at home, making this the most common listening option. Overall, pop and home headphone listening led the results in this club. The survey does not show why members made these choices or describe other pupils.

- Grup ve kişi sayısını tanıtt.
- Tercihleri doğru sayılarla karşılaştırd.
- Dinleme seçeneğini sayısıyla raporla; sonucu örneklemele sınırla.

Dikkat: Popun tercih edilmesini verilmeyen yaş, kişilik veya başarı nedenleriyle açıklamak.

3. Find the sentence that breaks the description · 12 puan

(1) Melis is the person our class asks to organise shared tasks. (2) She keeps a clear list and checks that nobody has been left out. (3) When plans change, she stays calm and suggests a new order. (4) The first commercial radio broadcasts began many decades ago. (5) Her patience and careful planning help the group finish its work.

Which sentence is irrelevant to this description? Explain why it does not belong, and state the shared focus of the remaining sentences.

Örnek yanıt

Sentence 4 is irrelevant. It gives information about radio history rather than Melis's character or teamwork. The other sentences describe her organisation, calmness and helpful role in a group.

- Her cümlelerin Melis'in kişilik/ekip rolünü geliştirip geliştirmediğini kontrol et.
- Radyo tarihi bilgisinin konuyla bağını bulamadığını açıkla.

Dikkat: 3. cümlede plan değiştiği için konu değiştiğini sanmak.

4. An opinion essay about friendship · 35 puan

A school magazine asks: “Which two qualities matter most in a good friend, and why?” You may write your own view or argue from a fictional writer’s perspective. Do not name real friends or reveal private experiences.

Write a short opinion essay of 90-110 words. State your view, develop two qualities in separate supporting sections with a reason and an example for each, consider one possible objection or limit, and end with a conclusion. The examples may be fictional.

Örnek yanıt

Example: I believe honesty and respect are two essential qualities in a good friend. Honesty builds trust because people need reliable information. For example, a friend can admit forgetting an agreed task instead of inventing an excuse. Respect is equally important because friends may have different interests. A respectful friend can accept someone’s decision not to join an activity. Some people worry that honesty always hurts, but truthful comments can be expressed kindly. Friendship does not require agreement on everything. In conclusion, friends strengthen their relationship when they tell the truth with care and respect each other’s choices.

- Açık görüş ve iki niteliği seç.
- Her niteliği ayrı gerekçe ve hayalî örnekle geliştir.
- Bir itiraz/sınırı tartışıp görüşünü sonuçta toparla.

Dikkat: İki niteliği sadece listeleyip gerekçe ve örnek vermemek.
